

## Im Vergleich: Schülerprodukte aus der 18. Woche

Dieselbe Lerngruppe aus der Eingangsstufe in der 18. Schulwoche – wieder erhielten die Kinder die Aufgabe, alles zu notieren, was sie bereits rechnen können. Interessant sind die zu erkennenden individuellen Lernfortschritte im direkten Vergleich mit den Produkten aus der 3. Schulwoche.

Es ist eindeutig, dass die Schülerinnen und Schüler sich sehr viel mehr zutrauen.

Handwritten student work by Angelika, dated 17.12.20. The work shows several addition problems, some of which are incorrect or unusual. The problems are:

- $50 + 50 = 700$
- $4 + 4 = 8$
- $5 + 5 = 70$
- $6 + 6 = 27$
- $7 + 7 = 7$
- $8 + 7 = 9$
- $6 + 4 = 10$
- $9 + 3 = 12$
- $6 + 7 = 7$
- $70 + 70 = 20$
- $20 + 7 = 27$

The name "Angelika" and the date "17.12.20" are written in the top right corner of the work area.
